

December 2018

LENNYKIA HIGH SCHOOL APPRENTICESHIP PROGRAM (HSAP)

I am currently in the 11th grade. In the future I would like to pursue a career as a Forensic Lawyer or something in the field of Astronomy.

BEST THINGS ABOUT THE PROGRAM

This summer I had a blast working side by side with Professor Cucchiara. We focused on looking at different images taken by the Dark Energy Camera. It was amazing to see how the sky looks through digital images. Seeing the different types of stars, comets, galaxies, asteroids, and other Near Earth Objects (NEOs) made my summer!

HOW PARTICIPATING IN AEOP INSPIRED YOU TO ADVANCE IN STEM

Before I completed this program, I thought I wanted to be a criminal lawyer. I'm now rethinking my career plans completely.

WORDS OF ADVICE

The AEOP program is a wonderful experience. It will open your mind to new amazing career paths. It's a great way to keep active during the summer while doing something fun.

WHAT ARE YOUR FUTURE HOPES AND DREAMS?

I would like to make a difference in society and help others. I am going to give back to my community.
