

IT ALL STARTS WITH YOU!

Volunteer for AEOP opportunities today

Help create STEM opportunities for students and make a difference in their lives through mentoring, judging, advocating and more.

MENTOR

Mentors are scientists, engineers or STEM professionals who provide guidance, support and professional input to STEM focused students through a variety of activities, including:

- Classroom Presentations
- Teacher Professional Development
- STEM Competition Mentoring & Project Judging
- Curriculum Development

AMBASSADOR

Ambassadors serve as the “face of eCYBERMISSION” and actively promote the eCYBERMISSION Program in their communities. Ambassadors recruit both students and volunteers to participate in this annual competition.

TEAM ADVISOR

Team Advisors assist student eCYBERMISSION teams with registration, choosing a Mission Challenge, provide oversight of team activity and review the Mission Folder prior to submission. One Team Advisor is required for each eCYBERMISSION team.

CYBERGUIDE

CyberGuides provide online assistance to eCYBERMISSION Teams via online discussion forums, chat rooms and monthly Live CyberGuide chats. CyberGuides can also serve as Ambassadors and promote the eCYBERMISSION program in their local communities.

FIND AN OPPORTUNITY TODAY!

Our volunteer opportunities cover a wide range of ages, STEM activities and locations.
