CHANCE

eCYBERMISSION + CAMP INVENTION ALUMNI

I am going in to ninth grade and will be working with film technology which includes cameras and programs, etc.

WORDS OF ADVICE

If you want to do something in the STEM field, don't let that idea dry out and be sure to push yourself.

BEST THINGS ABOUT THE PROGRAM

I enjoyed learning how to work better as a team under deadline.

WHO IS YOUR FAVORITE STEM ROLE MODEL?

My teacher, Mr. Arant, because he incorporates STEM into everything we learn, and he is the smartest person I know.

WHAT ARE YOUR FUTURE HOPES AND DREAMS?

I would like to work for Lucasfilm and work on the editorial team to make movies.

WHO WOULD YOU MEET IF YOU COULD CHOOSE ONE PERSON LIVING OR DEAD?

It is between George Lucas and Steven Spielberg. They are the greatest movie makers in history, and I would like to learn from their teachings.
