INTERNSHIPS & FELLOWSHIPS

AEOP Summer Internships Application and Information

Army Educational Outreach Program

- Offers students and teachers a collaborative, cohesive, portfolio of Army-sponsored STEM programs that effectively **engage, inspire, and attract** the next generation of innovators with K-through college programs and expose them to **DoD STEM research and careers**
- AEOP Consortium of partners brings together **subject matter experts from DoD, academia and industry** with shared STEM interests
- Enables Army to be strategic and intentional in investments, capitalizing on best practices and lessons learned from partners and broader networks
- **Hands-on STEM enrichment programs, competitions, and paid research experiences**

Internships and Fellowships

- Internships for high school and undergraduate students and Fellowships for graduate students and postdoctoral scientists and engineers
 - Hosted by approved U.S. Army Research Laboratories and Centers and university labs throughout the nation
 - The unique opportunity to be mentored and trained by senior researchers while conducting real-world research for the benefit of the country.
 - Supported with college- and career-readiness curriculums, and given access to further educational opportunities
 - Administered by staff at the Rochester Institute of Technology (RIT)
-

What Are **You** Doing This Summer?

- Immerse yourself in a world of **research** – locations nationwide
- U.S. Army Research Laboratories and Centers
- University Labs (research sponsored by Army Research Office)
- Be part of the long history of **discovery and innovation** for the benefit of the Nation
- Wide range of projects drawing on all **STEM disciplines**

AEOP Internship **Benefits**

- **Stand out** from your peers
- Be in the room where it happens
- **Mentorship**
- **Research that matters**
- Ongoing Support
- **Earn a stipend**
- Work under the **mentorship** of a professional scientist or engineer. Build technical skills, learn about education and career paths in STEM
- Work under the **mentorship** of a professional scientist or engineer. Build technical skills, and learn about education and career paths in STEM
- Receive **ongoing support**
 - Connect with other AEOP interns at locations throughout the country
 - Participate in the AEOP's webinar series that highlights hot STEM careers, research areas, and next-step opportunities.
 - Attend virtual workshops to build skills required for graduate school applications and/or your job search

What Application Materials Are **Required**?

Required Materials:

- Unofficial Transcript
- Personal Statement (2000 words max)
- List of STEM Courses
- At Least One Letter of Recommendation (**undergraduate students only**)

Optional Materials:

- Resume

Go to usaeop.com for the application and for additional information. Click [here](#) to apply!

The Army Educational Outreach Program [AEOP] and all its programs adhere to guidance from local authorities on coronavirus, otherwise known as COVID-19, precautions. Please confirm COVID-19-related protocols with your specific program location. [LEARN MORE](#)

- A step-by-step process for the High School Internship application can be found [here](#).

Summer 2024 High School Internship applications are now open. Click [here](#) to review all available opportunities.

Stay up-to-date with our application and future opportunities by joining our mailing list [here](#).

Eligibility

All participants must be current high school students who are U.S. citizens or permanent legal residents. Additional eligibility requirements vary by location.

In alignment with the federal government, AEOP supports diversity, equity and inclusion in STEM and is interested in broadening participation for underserved populations. To support this effort, some (but not all) AEOP High School Internships are specifically designed for participants from underserved groups. [AEOP Undergraduate Internships are open to participants from all backgrounds. Candidates from underserved groups are encouraged to apply.]

APPLY NOW

Expectations for AEOP Apprentices

AEOP apprentices must follow the program schedule while also adhering to the attendance and absence policies provided by their lab coordinator and mentor. Failure to meet these reasonable requirements may result in termination, and in such cases, the apprentice's stipend will be prorated accordingly to reflect their participation time in the program.

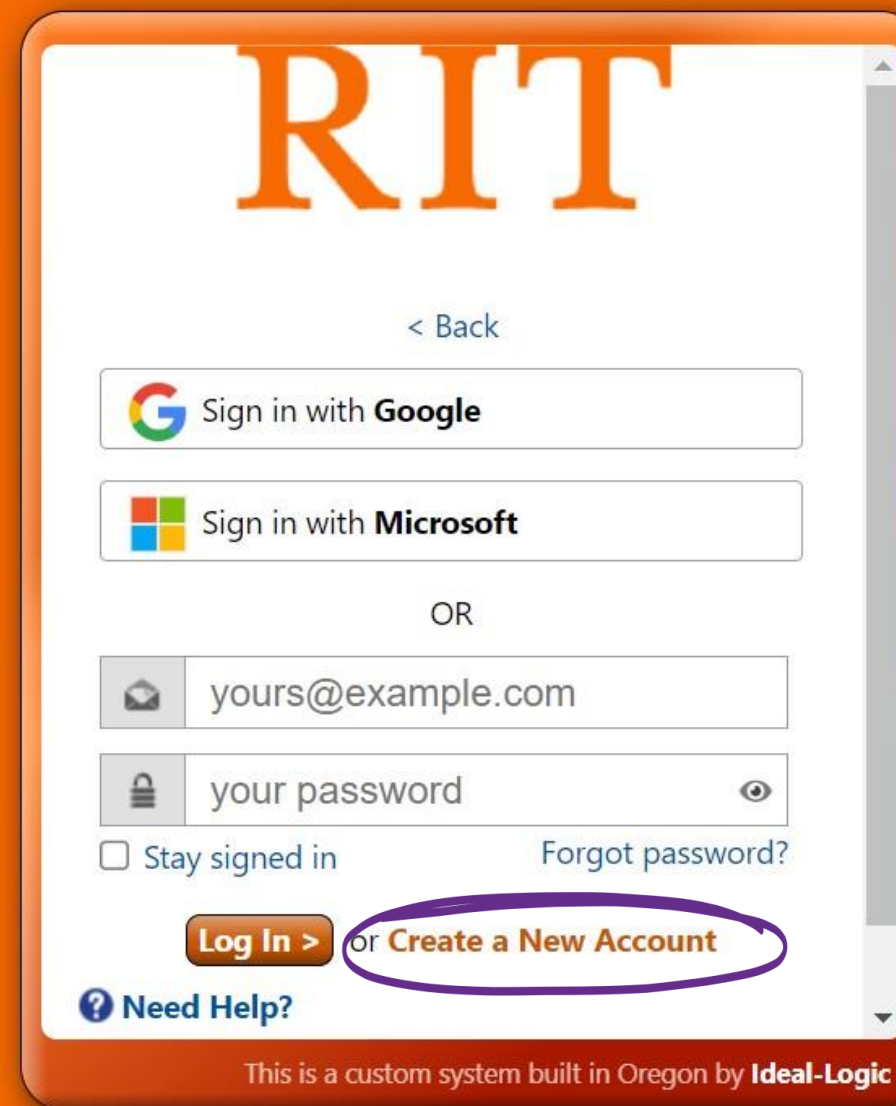

Application

AEOP Internships and Fellowships are administered by RIT. Select the **Non-RIT Login** option to create an account or to log in.

Log-in or Create A New Account

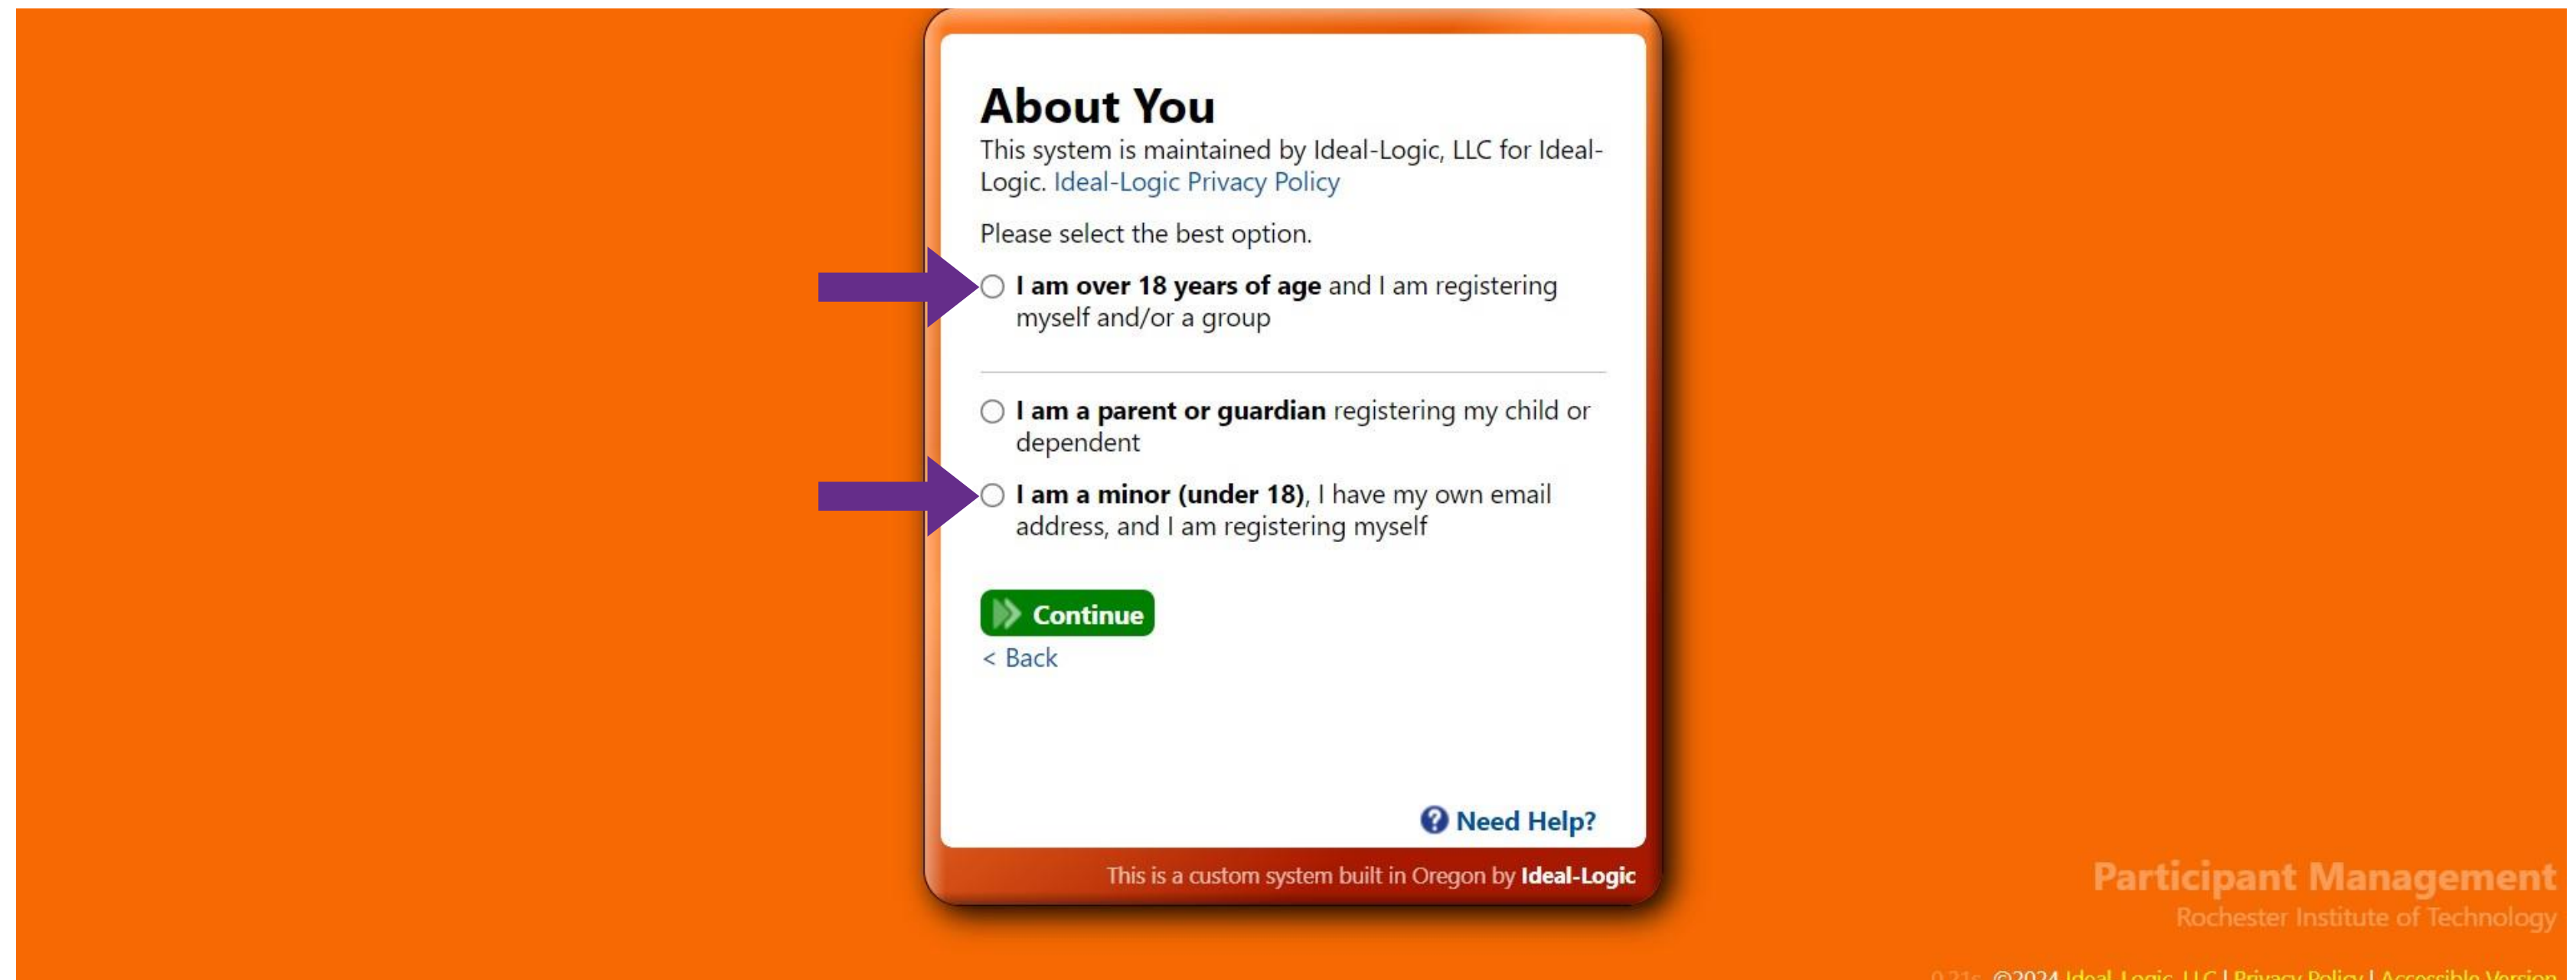

If you are just starting an application for the first time click **“Create a New Account”**.

The screenshot shows the RIT login interface. At the top is the 'RIT' logo. Below it is a '< Back' link. There are two social login buttons: 'Sign in with Google' and 'Sign in with Microsoft'. Below these is an 'OR' separator. The email field contains 'yours@example.com' and the password field contains 'your password'. There is a 'Stay signed in' checkbox and a 'Forgot password?' link. At the bottom of the login section, there is a 'Log In >' button and a 'Create a New Account' link, which is circled in purple. At the very bottom of the page, there is a 'Need Help?' link and a footer note: 'This is a custom system built in Oregon by Ideal-Logic'.

Who should complete your application?

Applicants should complete their own application. Select the option that applies to you, then click continue.

Application Home Page

Welcome to the application! As you complete the first few questions more tabs will become available to you to complete your full application. Please use the green “Next >” button to move to the next page.

The screenshot shows the 'New Registration' page of the AEOP application. The page has a purple header with the 'aeop' logo and 'usaeop.com'. Below the header, there's a navigation bar with 'Home', 'Calendar', and 'Help' buttons. The main content area is titled 'New Registration' and features a sidebar with three tabs: '1. Registration', '2. Application Eligibility Requirements', and '3. Review'. The 'Registration' tab is active, displaying a 'Welcome!' message and instructions. Below this, there's a section for 'Applicant Information' showing the user's name 'Kierra M' and age '15 Years Old'. A 'Wrong person?' link is also present. A filter section shows 'AEOP (1)' and 'K-12 University (1)'. A table lists the application: '2024 AEOP Internships and Fellowships Application 2023/2024' with a status of 'Open Available' and a 'Selected Remove' button. At the bottom, there are buttons for 'Cancel Registration', 'Save for Later', and 'Next >'. On the right side, there's a sidebar with the AEOP logo, contact information, and a 'Registration Status' section showing a progress bar at 53% and a 'What's Missing?' link.

New Registration

Welcome!
This form will walk you through the AEOP program. Use the *Next* and *Previous* buttons to navigate around the form.

Applicant Information

Eligibility

- U.S. citizen or legal permanent resident
- Currently enrolled in high school or in an undergraduate degree program
- Within five years after you have your degree and not enrolled in the next level (gap year)
- See any additional requirements on the locations list (specific to each site)

The screenshot shows the 'New Registration' form for the Army Educational Outreach Program (AEOP). The form is divided into several sections, with a sidebar on the left listing the steps: 1. Registration, 2. Application Eligibility Requirements, 3. Registration Details, 4. Site Selection, 5. Applicant Information*, 6. Guardians, 7. Emergency Contacts, 8. Consent to Participate*, and 9. Review. The main content area is titled 'New Registration' and includes a note about graduate students and a link to www.usaeop.com. It then asks the user to determine their program eligibility status based on citizenship. The 'Citizenship' section is highlighted, and the question 'Are you a U.S. citizen or permanent legal resident?' is displayed. A note states: 'NOTE: You cannot continue with the application without indicating that you meet this requirement.' Below this, there are three radio button options: 'U.S. Citizen' (selected), 'Permanent Legal U.S. Resident', and 'Other or choose not to report'. At the bottom of the form, there are buttons for 'Cancel Registration', '< Previous', 'Save for Later', and 'Next >'. On the right side of the form, there is a sidebar with the AEOP logo, contact information (phone number (585) 475-4529 and email aeopapprenticeships@rit.edu), a 'Registration Status' section showing a progress bar at 61% and the text 'In Progress' with a link 'What's Missing?', and an 'Applicant Information' section showing the name 'Kierra M' and age '15 Years Old'.

Diversity, Equity and Inclusion*

In alignment with the federal government, AEOP supports diversity, equity and inclusion in STEM and is interested in broadening participation from underserved populations. To support this effort, some (but not all) AEOP High School Apprenticeships have been specifically designed for participants from underserved groups. (AEOP Undergraduate Apprenticeships are open to participants from all backgrounds. Candidates from underserved groups are encouraged to apply.)

The information in this section will be used both to statistically understand AEOP's reach and to determine if you meet AEOP's broad definition of underserved. Later in this form, you will be asked for more detailed demographics. The information you provide will be treated as confidential and submission is voluntary.

Note: If you have a disability and require reasonable accommodations to participate in AEOP Apprenticeships, please contact aeopapprenticeships@rit.edu upon acceptance to the program.

Select only those items that apply to you.

- ☐ I identify as an Alaskan Native or Native American, Black or African American, Hispanic, and/or Native Hawaiian or Pacific Islander.
- ☐ I identify as female and am pursuing research in physical science, computer science, and/or engineering.

Arizona

Click the **Select** button next to your choice(s) if you wish to make any.

Arizona State University (Tempe) (High School /ARO 4)
High school apprentices will participate in hands-on simplified experiments that will introduce them to the idea of integrating concepts from material chemistry, mechanics of materials, and composites to understand what causes materials to fail. They will also assist the Undergraduate Apprentices in testbed preparation while learning the importance of quantifying material strength and stiffness, and how these properties are affected by the environment.

Open Available **+ Select**

Requirements: Essential character traits and criteria will include strong motivation, diligence to learn new skills, and curiosity to explore unknown technical areas. The requirements for a high school apprentice will include a strong academic background and completion of advanced mathematics, chemistry, and physics courses.

Site closes: February 29, 2024
