

February 2024

ASHLEY
Research Experiences
for STEM Educators
and Teachers (RESET)
from 2021

WHAT IS THE CRAZIEST THING YOU WOULD LIKE TO PURSUE IN STEM?

I would like to inspire as many students as I can to pursue STEM.

WHAT GOT YOU INTERESTED IN THIS PROGRAM?

I participated in the Research Experiences for STEM Educators and Teachers (RESET) from 2021 to now. I became interested in this program because I wanted to explore additional ways to help students learn.

WHAT'S SOMETHING THAT HAS SURPRISED YOU ABOUT THE AEOP PROGRAM?

I am surprised by how influential the resources have been in the AEOP program. I have been learning a lot!

TELL ME ABOUT YOUR AEOP EXPERIENCE...

My AEOP experience has allowed me to interact with Army researchers and find ways to better engage students.

IF YOU COULD HAVE A CONVERSATION WITH A FAMOUS SCIENTIST FROM HISTORY, LIKE ALBERT EINSTEIN OR MARIE CURIE, AND BRING THEM UP TO SPEED ON MODERN ADVANCEMENTS, WHAT TOPICS WOULD YOU DISCUSS?

I would like to discuss current educational technology and the ways in which education is being implemented.
