KAYLI AEOP High School Internships

WHAT IS SOMETHING YOU ARE PASSIONATE ABOUT AND WHY?

I am passionate about learning! I love discovering new things and exploring topics from new perspectives.

WHAT'S SOMETHING THAT HAS SURPRISED YOU ABOUT THE AEOP PROGRAM?

It was surprising to have the opportunity to learn and work with Ph.D. students and professors. I am both surprised and grateful for the numerous opportunities I've gained through the program and how much I've learned.

TELL ME ABOUT YOUR AEOP EXPERIENCE...

I completed the AEOP Internship this summer at Colorado State University. The focus was on FMR and the Boron component of FMR films. It was a very fun experience, working in a lab and gaining insights into the equipment they used!

IF YOU COULD HAVE A CONVERSATION WITH A FAMOUS SCIENTIST FROM HISTORY, LIKE ALBERT EINSTEIN OR MARIE CURIE, AND BRING THEM UP TO SPEED ON MODERN ADVANCEMENTS, WHAT TOPICS WOULD YOU DISCUSS?

I would talk about Social Media, ChatGPT, and instant ramen. These technological advancements are talked about a lot in my life.
